Timing Considerations

Gifts of securities can generally take 3-5 business days to transfer from the initiating broker/advisor to the University of Guelph's account. Processing the gift by our Treasury team may then take 2-3 business days, and charitable tax receipts are mailed through Canada Post (or on occasion emailed directly if requested). Gifts of mutual funds may take significantly longer to transact (2-4 weeks) as power of attorneys must be signed. If you are looking to make a gift within the calendar year, for mutual funds we recommend authorizing the donation through your broker/advisor no later than November 15, and for all other publicly traded stocks no later than December 15. For gifts made close to calendar year-end, please note depending on the University holiday shutdown period and gift volumes, your charitable receipt may arrive closer to the end of January via Canada Post. Thank you for your patience.

Charitable Tax Receipt Value

The charitable tax receipt will reflect the fair market value of the shares on the date the gift is received by the University through RBC. The amount is based on the market value of the shares at the close of trading that day. For US securities, the exchange rate will be the Bank of Canada closing US/Canada rate for the day the shares were valued. The valuation of the funds for the purposes of crediting the designation account at the University will normally be the receipted value of the donated security.
